BEST PRACTICES

- **Eco-friendly Campus**: Rain Water Harvesting is put in place using Japanese Technology which maintains ground water table, MoU signed with ITC to periodically collect non-biodegradable waste. The waste products are segregated as degradable and non-degradable in coloured bins. Solar panels are used for power generation as natural power resource in Main Auditorium, Indoor Stadium, IT block and Autonomous Block.

- **E- Governance:** Monitoring the performance and activity of every student and Faculty, a strong e-governance mechanism is in place through College Information System (CIS). Full time technicians and software professionals maintain the e-records and web portal. Online Admission process, Fees payment and receipt, Online feedback from all stakeholders, Online Examination application, Hall ticket generation, Result declaration and Revaluation. Online examination is conducted for Environmental studies, Non-major Elective papers. SDNBVC Mobile APP facilitates updating/viewing college information from any place. Excellent computer network facility, with e-resources strengthens our campus administration.

- **Imparting E-Knowledge:** All students are given digital literacy with the support of Electronics Students Relationship Management (ESRM) department. All Post-graduate students are given additional credits on completion of MOOC/NPTEL. Success of our students opting to take MOOC courses by NPTEL as an ADD-ON Certification, was a motivation to develop e-content for our students in the areas like Machine Learning, R programming, Python Programming, Data Analytics, Research writing , digital marketing etc. which is available on the intranet as a Digital Knowledge Resource(D-space).

- **Holistic Development through Value Education:** Everyday Sarvodhaya Prayer (All religion Prayer) is conducted to highlight unity in diversity. To inculcate moral values Thirukural and Bhagavad Gita verses are narrated highlighting virtuous behaviour. To impart value education students are given practice in Yoga and Meditation.

- **Skill Development Programs:**
  Training programs are conducted for girls to become prospective entrepreneurs through the Women Entrepreneur Development Cell (WEDC). Skill Development courses such as Artificial Jewellery Making, Doll Making, Quilling and Cooking without fire, Jam and Pickle Making etc.

- **Campus Radio:** Campus Talk our campus radio channel was launched in November 2018 by the students of Department of Visual Communication. The college FM entertains students every Friday. The events of the college are announced through campus FM.

- **Stage set Designing**: The students of Department of Visual Communication design the background stage for all college celebrations. Their creative designs have won accolades from renowned Art directors. This opportunity helps them to plan and execute set designing for various events. Some students have become Event Management Entrepreneurs.
