PROGRAMME SPECIFIC OUTCOMES (PSOs)

PSO1: Demonstrate the ability to conduct research independently and pursue higher studies towards Research in Mathematics and computing.

PSO2: Carry out applications of Mathematics in the field of Network Analysis, Optimization techniques and other related fields.

PSO3: Demonstrate competence in using mathematical and computational skills to model,formulate and solve real life applications.

PSO4: Ability to acquire knowledge and skills through self learning that helps in personal and skill development suitable for changing demands of work place.

PSO5: Enable students to develop a range of common skills which in turn will be helpful in wage employment, self employment and entrepreneur ship.

PSO6: Acquire deep knowledge of different mathematical disciplines so that they can qualify Competitive Examination.
