**ABSTRACT**

*This paper attempts to analyse how India as a country traversed through the lock down period and how quick is the recovery of the Indian Economy from the down turn. The Government has taken several measures to handle the Covid pandemic situation and also to revive the growth of the Economy. The impact of the spread of the Pandemic on various sectors of the economy, the Government's efforts to address the disaster, and the response of the economy to the Government's efforts are discussed in this paper. Whether the Economy is back on the track of Growth again? A review*

**KEYWORDS**

***Covid19, Indian Economy, Lock down***
