ABSTRACT

The Covid-19 situation has brought great loss to a huge number of lives and has affected the normal life of the people. The society at large has been drastically hit by pandemic – both socially and economically. The educational system has faced the wrath of the outbreak on a larger scale. The traditional face to face-to-face classroom teaching-learning shifted to online mode. During this pandemic the online mode of teaching-learning had a great impact on students at various levels across the globe. The main objective of this study is to analyse the impact of online classes among school students in Chennai city and to analyse the effectiveness of online - learning.
