Covid – 19 Awareness Campaign 2021

The NSS Units of SDNB Vaishnav College for Women Organized Covid-19 Awareness Campaign 2021 on 13th December 2021 to stop the spread of virus. To create awareness and educate the public regarding preventive intervention techniques that would help in reducing the transmission of the disease. NSS Volunteers also insisted the public to take two doses of vaccine. NSS Volunteers had distributed Pamphlets amongst local community in the vicinity.

Nearly 50 NSS Volunteers took part in this awareness program. As an outcome people were sensitized about the spread of Corona Virus and its prevention. Around 300 pamphlets were distributed and posters were displayed in and around our campus. This is an evolving situation, and timely and accurate information is critical. Educating the public about positive preventive measures, talking to them about their fears, and giving them a sense of some control over risk of infection helped in reducing their anxiety. The NSS Volunteers had taken sincere efforts in creating awareness on the deadly disease. Nearly 300 general public were benefited out of this awareness campaign.
