## **Cyber Jaagrookta Diwas 2022**

Everybody thinks that only stealing someone's private data is Cyber Crime. But in defining terms we can say that "Cyber Crime" refers to the use of an electronic device (computer, laptop, etc.) for stealing someone's data or trying to harm them using a computer.

Besides, it is an illegal activity that involves a series of issues ranging from theft to using your system or IP address as a tool for committing a crime.

We can say that Cyber Crime is a dangerous offense to someone's privacy or any material. We can avoid Cyber Crime by following some basic logical things and using our common sense.

NSS Units of SDNB Vaishnav College for Women conducted Poster Competition under the topic "**Do Your Part, Be Cyber Smart**" on **5<sup>th</sup> January 2022** and nearly 50 members participated and made so many colourful posters to create awareness among people.

# #BE CYBER SMART

**#Change your passwords frequently #**

**#Don't speak with strangers#**

**#Use Smartphones for camera#**

**#Use Keypad phones for calling, texting#**
