participate and make this a memorable day.**

EVENT REPORT

December 7th of every year is celebrated as National Letter Writing Day. To do to someone by picking a pen, grabbing a piece of paper and writing a letter to them is an antique way to express the love to their beloved ones. This day encouraged the students of SDNB VAISHNAV COLLEGE to write letters to their dearest friends and staffs with beaming enthusiasm.

The event took place inside the campus. Students were asked to write letters expressing their gratitude, love and respect. All the departments from aided stream were a part of this heart felt occasion. The Union bearers collected these letters and delivered them to the person to whom the letter is addressed to.

The event gave an opportunity for the students to communicate with the Professors and students of different Departments. These letters helped them to bring out their queries and in further helped each other to enhance the understanding between the staff and the students.
