

CENTRE FOR INCLUSION AND EQUAL ACCESS

Regular Trainings

1. Computer Access Training

A trainer named Priyadharshini was appointed on part-time basis to give access training for students with disabilities. They were trained to use computer with NVDA a speech to text software. Students with computer skills will have a better employment opportunity therefore the student with visual impairment were encouraged to learn computer access skills at the centre.

Two of the faculty with low vision were also trained at the centre to use computer with the help of NVDA. They were encouraged to used computer with screen reader.

2. English Typing Training

Students with dyslexia and mild intellectual disability and hearing impairment were given typing training using computer to improve their employment opportunities.
