

BBA Airport and Airline Management - FAQ

1. What is the eligibility criteria? (Minimum 100 words)

- Students must have successfully completed their Higher Secondary or Class XII examination from a recognized board with a minimum of 60% marks.
- Students who completed +2 with any subject combination can apply.

2. What is the duration of the program? (Minimum 40 words)

The BBA Airport and Airline Management programme is a three-year undergraduate degree divided into six semesters. Each semester combines theoretical foundations with practical simulations, ensuring students gain hands-on exposure to airport operations, airline scheduling, passenger handling, and aviation analytics.

3. What subjects will be covered in the curriculum? (Minimum 100 words)

The curriculum covers Principles of Management, Introduction to Air Transport System, Organizational behaviour, Fundamentals of Airport Operation, Marketing Management, Air Fares and Ticketing, Human Resource Management, International Cargo Management, Financial Management, Management Accounting, Aviation and Aircraft Law, Strategic Management, Airline Operations and Crew Management, Air Traffic Management and Airside Operations.

4. Are electives available in this program? (Minimum 40 words)

Yes, electives are available in the BBA Airport and Airline Management programme. In the 5th and 6th semesters, students can choose Discipline Specific Elective (DSE) papers according to their interests and career goals. Students are offered three elective choices in each semester, allowing them to specialise in preferred areas.

5. Is there an entrance exam for this course? (Minimum 60 words)

No, there is no entrance examination for admission to the BBA Airline and Airport Management programme. Admission is based entirely on the marks obtained by students in their Class XII qualifying examination. Eligible candidates are selected according to the admission guidelines and merit criteria prescribed by the institution. This ensures a transparent and fair admission process for all applicants without the need for any additional entrance test.

6. Does the program include internships? (Minimum 120 words)

Yes, the BBA Airport and Airline Management programme includes internships as an integral part of the curriculum, providing students with valuable industry exposure and practical experience. Eligible students are given opportunities to attend interviews conducted by partnering companies and organizations. Based on their performance and the requirements of the organization, students may be offered paid or unpaid internship positions.

7. What career opportunities are available after completing this program? (Minimum 100 words)

Graduates of BBA Airline and Airport Management have diverse career opportunities in aviation and airline sectors. They can work as Airhostesses,

Airport Operations Executives, Airline Customer Service Managers, Ground Staff Supervisors, and Aviation Analysts. Opportunities exist in domestic and international airlines, airports, aviation service providers, and logistics organizations. With certifications in airport operations, customer service, and aviation safety, graduates are industry-ready for global roles.

8. Do you provide placement support for this program? (Minimum 100 words)

Yes, the campus provides structured placement support through an active Placement Cell for students of the BBA Airport and Airline Management programme. Career guidance sessions, resume-building workshops, mock interviews, aptitude training, and soft-skill development programmes are organized across all semesters. Continuous placement assistance, industry-aligned training, and hands-on project exposure ensure students are industry-ready and support a smooth transition from academic learning to professional careers.

9. Do the course focus more on theory or hands-on lab practical? (Minimum 60 words)

The programme emphasizes practice-oriented learning with 80% practical exposure; therefore, a laptop is mandatory for this course. While theoretical foundations in aviation management and airline marketing are taught, the curriculum prioritizes applied learning through projects, and industry certifications.

10. Is attendance mandatory? (Minimum 70 words)

Yes, attendance is mandatory for all students enrolled in the BBA Airport and Airline Management programme. As per the academic regulations of the

institution, students must maintain a minimum of 75% attendance in each semester in order to be eligible to appear for the semester-end examinations, internships and placements. Regular attendance is essential to ensure effective learning, participation in classroom activities and continuous academic progress. Students who fail to meet the required attendance percentage may not be permitted to take the examinations, internships and placements.

11. Do we need to do project in this course? (Minimum 100 words)

Yes, projects are mandatory. Students undertake capstone projects in the final year, focusing on real-world applications of aviation management. In addition to the final project, students are continuously trained through a series of mini projects across various semesters to strengthen hands-on skills and reinforce continuous learning. Students are encouraged to present their projects at aviation innovation showcases. These projects enhance problem-solving, research, and teamwork skills, preparing students for industry roles and entrepreneurial ventures.

12. Are industry visits or workshops conducted? (Minimum 80 words)

Yes, industry visits and workshops are regularly conducted. Students visit airports, airlines, and aviation service providers to gain exposure to real-world aviation environments. Workshops are organized on tools like airline reservation systems, airport management software, and CRM platforms. Industry expert seminars by aviation professionals, managers, and alumni bridge academic learning with current industry practices.

13. What learning resources are available (lab, library, Wi-Fi, etc.)? (Minimum 120 words)

A well-stocked library offers textbooks, journals, e-resources, and online databases. High-speed Wi-Fi is available across campus, enabling digital learning and project collaboration. Smart classrooms with audio-visual facilities support interactive teaching. Students also access online learning platforms, open-source repositories, and certification portals. These resources ensure a technology-enabled environment for holistic learning.

14. What is the grading or evaluation system? (Minimum 100 words)

The BBA Airport and Airline Management programme follows the Choice Based Credit System (CBCS) pattern of evaluation. The assessment of students is carried out through a combination of internal and external examinations to ensure continuous and comprehensive evaluation. Internal assessment includes two Continuous Assessment Examinations conducted during the semester. In addition to these tests, students are evaluated through seminars, assignments, presentations, Quiz, Role play and class participation. The external semester-end examination is conducted as per university norms. This balanced evaluation system ensures that students are assessed not only on their final exam performance but also on their regular academic involvement, understanding of concepts, and practical application throughout the semester.

15. Are there any extracurricular activities offered? (Minimum 90 words)

Yes, students participate in aviation showcases, role plays, crisis management drills, and business pitch events. Cultural programmes, sports, and management fests are also organized. Sports and physical activities, including indoor and outdoor games, are strongly promoted to support physical fitness

and team spirit. Community service initiatives and student clubs further nurture social responsibility. These extracurricular opportunities build confidence, leadership, and communication skills, ensuring holistic development.

16. Are doubt-clearing or mentoring sessions provided? (Minimum 90 words)

Yes, regular doubt-clearing and mentoring sessions are provided for students of the BBA Airport and Airline Management programme. Faculty members and Gen Z minded mentors offer continuous academic and technical support, including after-hours guidance when required. In addition to in-person sessions, online support classes are conducted for students who need extra assistance or flexible learning options. Rooted in strong academic expertise and driven by Gen Z thinking, the mentoring system ensures clear understanding, confidence building, and continuous academic and career guidance throughout the course. Our Mentors exchange ideas openly, and create an engaging, collaborative learning environment. This approach builds confidence, clarity, and trust, ensuring students receive holistic academic and professional support throughout their learning journey.

17. What is the maximum intake for this program? (Minimum 40 words)

The maximum intake for the BBA Airport and Airline programme is limited to 70 students. This structured intake ensures better academic focus, individual attention, and effective mentoring. The class size is designed to maintain an optimal learning environment, allowing meaningful student–

faculty interaction, active participation in discussions, collaborative learning, and efficient monitoring of academic progress throughout the course.

18. What skills will I gain by the end of this program? (Minimum 150 words)

By the end of the programme, students gain strong knowledge in aviation management, airport operations, and airline customer service. They develop expertise in passenger handling, airline scheduling, ground handling, and aviation analytics. Students build industry-ready portfolios featuring airhostess profiles, airline operations plans, service quality audits, and aviation market analysis reports. Soft skills such as communication, teamwork, and problem-solving are strengthened through simulations, projects, and showcases. Overall, students are prepared for careers as Airhostesses, Airport Operations Executives, Airline Customer Service Managers, and Aviation Analysts.

19. Is Laptop mandatory for this course?

Yes, a laptop is mandatory for the BBA Airline and Airport Management programme as nearly 80% of the course hours are dedicated to hands-on learning. Students are required to use laptops for airline reservation systems, airport management software, CRM tools, and aviation analytics dashboards. Having a personal laptop ensures students can efficiently complete coursework, participate in weekly aviation simulations, and collaborate on group projects. It is an essential resource for building professional portfolios and succeeding in the programme's practice-oriented aviation learning environment.

20. What is the shift timing of this course?

The BBA Airline and Airport Management programme is conducted in Shift II. Regular class timings are from 1:00 p.m. to 5:30 p.m. on all working days, as per the institution's academic timetable. This schedule ensures that students have dedicated morning hours for lectures, hackathons, and collaborative projects. The structured timing also allows flexibility for students to participate in afternoon workshops, industry seminars, and extracurricular activities, thereby balancing academic learning with practical exposure and skill development.
